

Governor Larry Hogan NGA Chair's Initiative Infrastructure Stakeholder Summit II *Strengthening Security and Resiliency: Protecting America's Critical Infrastructure*

October 17 – 18, 2019

Westin Book Cadillac
1114 Washington Blvd
Detroit, MI 48226

Infrastructure policy and technology experts from across the country will join the National Governors Association (NGA) in Detroit, Michigan, for the second of four Stakeholder Summits in support of Maryland Governor Larry Hogan's 2019-2020 NGA Chair's Initiative. This Summit will focus on protecting America's critical infrastructure by strengthening security and resiliency. In every state, the threat of cyberattacks and the challenges posed by extreme weather and climate-related risks threaten the operation of critical infrastructure, including energy systems, water and stormwater facilities, and the transportation sector. The Summit will feature expert panel discussions, an engaging site visit, peer-to-peer exchanges and networking opportunities.

All events are business attire.

9:00-10:00 AM **Smart and Secure Infrastructure: How Can States Ensure Critical Infrastructure Is Cybersecure as they Modernize?**
Woodward Ballroom A/B, 2nd Floor

Governors have been instrumental in modernizing infrastructure systems; through efforts to incorporate new connected and sensing technologies into transportation networks, energy systems, and water facilities. While these innovations bring many benefits, they also open systems to new cyber vulnerabilities. In this panel, experts will examine threats, highlight state actions, and explore what is needed as infrastructure becomes increasingly connected and automated.

Speakers: Tennessee Governor Bill Lee

Chris DeRusha, Chief Security Officer, Michigan Department of Technology, Management and Budget

Steve Ambrose, Chief Information Officer, DTE Energy

Ryan Bowers, Cybersecurity, Privacy, and Autonomous Vehicle Counsel, General Motors

10:00-10:30 AM **BREAK**

10:30-11:30 AM **Designing for Resilience: How Can States Protect Critical Infrastructure from Natural Disasters**
Woodward Ballroom A/B, 2nd Floor

Over the past decade, every state and territory has been affected by a federally declared disaster event. From wildfires that destroy transmission systems and cause widespread power outages, to severe storms that cause wastewater systems to overflow and contaminate drinking water supplies, and flooding events that wipe out transportation networks, our infrastructure is faced with increasingly severe stressors. This panel will examine physical threats due to extreme weather and a changing climate, highlight state actions, and what governors can do to assess and protect critical energy, water, and transportation infrastructure.

Speakers: Michigan Governor Gretchen Whitmer

Ben Grumbles, Secretary, Maryland Department of the Environment

Pamela Williams, Executive Director, BuildStrong Coalition

Patrick Decker, President and CEO, Xylem, Inc.

Calvin Butler, CEO, Baltimore Gas & Electric

11:30-12:30 PM Lunch and Closing Remarks
