

Below are industry resources for facilities that can be used at this time. If you have any additional questions, feel free to reach out to Kate Bukowski ([kbukowski@nga.org](mailto:kbukowski@nga.org)) and Arianna Cicchinelli ([acicchinelli@nga.org](mailto:acicchinelli@nga.org)).

- [American Hotel & Lodging Association](#)
  - American Hotel & Lodging Association (AHLA) is helping to match and streamline the process for willing hotel properties to connect with federal, state and local governments. AHLA has launched a national “Hotels for Hope” database at the federal level with HHS, as well as at the local level with industry partner state associations. Local, state and federal government officials will be able to search willing properties based on geographic location. More information is available on their [press release](#).
- [BestGEN](#)
  - BestGEN can supply [slide-in rooms to place in convention centers](#)/open spaces as well as a [turnkey modular hospital](#), including nurses’ stations, triage rooms, etc., with the ability to set up 1000-room temporary hospital in very short order. Their hospital rooms are fully finished, inside and out, and designed as plug-and-play. Interested parties can have as few as two rooms or as many as 1000 rooms together. These units can sit right in a parking lot and can be stacked multiple stories high.
- [The National ATM Council](#)
  - The National ATM Council is able to provide container hospitals as an emergency medical solution for states. [More information](#).
- [Modular Building Institute](#)
  - MBI can tap into their members to rapidly deploy an inventory of up to 3k units (across the country) that can be used for things like, temporary testing/doctors’ offices, housing, hospitals (they are working on the same technology that was used in China for the 9 day hospital). These buildings are built to code and are removeable once the crisis is over.
- [OYO Hotels](#)
  - OYO Hotels is offering [free stays](#) at its more than 300 hotels in the United States to medical personnel engaged in the COVID-19 battle.
- [Prologis](#)
  - Prologis, a leader in logistics real estate, has offered several of their real estate properties to communities to be used as pop-up hospitals. These properties are in the following 11 states: CA, FL, GA, IL, KY, MD, NJ, OH, PA, TX and WA.
- [QualTek](#)
  - QualTek, one of the largest providers of turnkey services, can help with feeding and housing in times of crises. They can set up basecamps, transport logistics, fueling, network maintenance, power restoration, generator installation and maintenance.
- [REEF](#)
  - America’s largest network of parking, mobility and urban logistics hubs, has parking real estate assets available for drive-through testing, mobile, pop-up health facilities, and temporary isolation units. In addition to their own resources, they have partnered with other parking industry leaders LAZ, ABM, and SP+ to ensure the best coverage possible for this response effort.
- [Seritage Growth Properties](#)
  - Seritage Growth Properties has [a list of potential sites](#), parking lots and buildings, available for use to assist with the COVID-19 efforts.
- [Trestle-Aimbridge COVID-19 Housing Offer](#)
  - [Trestle Health and Housing LLC](#) has collaborated with [Aimbridge Hospitality](#) to deliver additional room capacity to blunt the anticipated COVID-19 surge over the next few weeks and months. They have vetted 700 hotels across the country and have access to over 103,000 hotel rooms in urban, as well as suburban and rural locations. They are providing states with discounted room rates, meal options, leveraging of in-place resources and access to key property management staff. [Here is the list of hotels available](#). If states are interested in securing a hotel and rooms, please contact Alice Walsh at [Covid@trestlehousing.net](mailto:Covid@trestlehousing.net) or (703) 585-4786.
