

CUSTOM INTUBATION ENCLOSURE

Helps protect physicians from COVID-19 and other infectious disease.

Modern Plastics is a trusted partner in the plastic distribution supply chain. During these uncertain times, we want to ensure the safety and well-being of our community. With our expertise in clear plastic and see-through materials, we are committed to supporting those on the front lines by providing a range of safety product solutions.

Acrylic or polycarbonate enclosures help protect nurses and physicians from the contraction of COVID-19 during the intubation process – identified as a high-risk medical procedure point.

An added benefit, acrylic or polycarbonate can be quickly disinfected with the following:

- Hydrogen Peroxide - pharmacy grade
- Bleach - household grade
- Isopropyl Alcohol - diluted with water to 30% strength

Modern Plastics can custom fabricate any design/style in any quantity
