

State-Level Information for Essential Workers Seeking Child Care

Updated: April 8, 2020

Essential workers may be faced with the need to find a safe child care arrangement while continuing to work. This document provides resources that may assist individuals in identifying child care options during this unprecedented time.

The following information was developed to help emergency and essential workers and their families find child care in each state. The table provides website links to the available information about each state's Coronavirus Disease 2019 (COVID-19) child care response, including links and phone numbers to help individuals locate child care in each state. Additionally, the table includes a link to the state's child care resource and referral (CCR&R) agency. CCR&Rs provide local child care information and often offer families individualized support in finding child care.

How to use this table:

1. **Find your state.** You may notice that some states have more links than others. Each state has different approach to providing child care for emergency/essential workers and to the information made available. Things are rapidly changing in response to COVID-19 so you should become familiar with the information provided and check back for the most recent updates.
2. Look for the column called **Child Care Information and Resources for Parents and Emergency/Essential Workers.** Notice that some resources and links appear in bold. These denote child care search options that states have made available. They could be a list of child care providers who may have openings, an online search of available child care spaces, or a phone number to call to receive help searching for child care. The other links are to the information states have created that explain how they have set up child care for essential and emergency workers. This may include an application for care that will be provided at no cost, or health and safety regulations that the child care provider must follow during the COVID-19 response.
3. The final column contains links to each state's **child care resource and referral (CCR&R) agency**, if available. CCR&Rs provide local child care information and often offer families individualized support in finding child care. Some states have set up special support for emergency and essential workers. CCR&R agencies may also be able to assist employers looking for child care solutions for employees.

Note: [ChildCare.gov](https://www.childcare.gov) is a national consumer education website that links users to their state child care search and other essential resources. Each state is required to make an online zip code-based child care search available. Links to these child care searches can be easily located on [ChildCare.gov](https://www.childcare.gov). Some child care searches may include current information about available vacancies within each program; however, not all states have this level of information available.

Remember to visit the informational page for each state often since information is changing rapidly.

The information was updated 4/8/2020.

Links for Search Features for Emergency and Essential Workers to Find Child Care, Information for Parents, and Links to Child Care Resource and Referral Agency Information. Listings in bold denote child care search options.
