

10 Questions for EdTech Vendors

KNOW BEFORE YOU BUY

- 1 How does your product allow me to import, export or synchronize information? What types of information can I transfer and in what format?
- 2 Does your product support a data standard such as Ed-Fi, IMS Global, or Access 4 Learning?
- 3 Do you adhere to secure student data privacy policies? Are you a signatory of the Future of Privacy Forum Student Privacy Pledge?
- 4 Has your development team received training about data privacy and security? Does your architecture support student data security?
- 5 How does your application architecture support scalability to provide fast response times to high volume and product usage?
- 6 What is the process for incorporating your product into our curriculum? How will we implement the new workflow with this product?
- 7 May I reach out to a customer who has incorporated your product into their curriculum to ask about their experience?
- 8 Does your product rely on research to demonstrate impact and inform product improvement?
- 9 If we chose not to continue with your product, what would happen to our data?
- 10 Have you signed the Project Unicorn Vendor Pledge?

INTEROPERABILITY

the seamless, secure, and controlled exchange of data between applications!
